British Seagull Outboard Technical Tips All British Seagull outboard engines should run on unleaded petrol. Did you know that unleaded petrol does not store for as long as standard leaded petrol - so keep it fresh. As soon as you mix Two Stroke Oil with the petrol it shortens its useful life. These factors together with natural evaporation...

section is for general running and operation of the motor, which includes how to mount the motor on your transom, starting procedures, running the motor in different weather conditions, general information and maintenance.

maddenterprises - The Classic British Seagull

British Seagulls were first built in the 1930s and soon settled into a design that remained fundamentally unchanged for another 50 years. There were two engine blocks: a 64cc block used for the 'Forty' models, producing between 1.5 hp and 3 hp, and a 102cc block used for the 'Century' models that developed between 4hp and 6hp.

General maintenance and running advice for your Seagull Outboard Motor.. 1 Run the engine in fresh water, ideally after every use in salt. If this is not possible, put a length of 3in (76mm) hose-pipe to the outlet hole and empty a gallon of water through the cylinder block to backflush the system.

British Seagull Outboard - British Seagull Outboard

In its heyday of the 1970s, British Seagull was selling over 80,000 motors a year - small, affordable, bullet-proof outboards barely changed since before the war, for pushing the tender, dinghy or the pocket cruiser along at a few knots when the wind dropped. The company even had its own foundries for the production...

Seagull Outboards - Classic Boat Magazine

British Seagull started in 1931 and amazingly enough it's still going strong and in British hands - almost unique! For its time the original engine was very advanced, a good proportion of the original engines are still running and parts are generally still available to keep them that way - a truly unique engine, a magnificent piece of British ...

13 Best British Seagull images | Outboard motors, Boat ...

I picked up a nice little British Seagull motor today. The 40 Plus model rated at 2.5hp. The price was right and the thing is clean, intact and runs quite well. Put it on my fg 12' sailboat and took it out for a test. Ran great and pushed it along fine at hull speed. I'm guessing that's about 4 knots. The thing is simple as can be. No fancy stuff.
