The engine you are talking about is GE's CJ-610. The CJ-610-4's were the original engine on the 23, most 20-series Lear's today are powered by CJ-610-6's which put out 2950#'s of thrust and easily exceed 100 decibels on takeoff and the CJ-610-8A are the best ones, rated up to FL510 but just

as loud.I think the company record for a noise violation is up over 110 decibels.
