The Digital Doctor: Hope Hype

“. The Digital Doctor is the eye-opening, well-told, and frustrating story of how computerization is pulling medicine apart with only a vague promise of putting it back together again. I kept muttering, “Exactly!” while reading it, and that is a measure of Wachter’s accomplishment in telling the tale.

Book Review: ‘The Digital Doctor’ by Robert Wachter - WSJ

The digital doctor : hope, hype, and harm at the dawn of medicine’s computer age. For the past few decades, technology has been touted as the cure for all of healthcare’s ills, yet medicine stubbornly resisted computerization-- until now. Thanks largely to billions of dollars in federal incentives, healthcare has finally gone digital.
